

KNOX HomeBox™

The Knox HomeBox™ is designed to allow firefighters to gain quick access to a private home in the event of an emergency.

The Knox HomeBoxes™ are small, heavy-duty and locked boxes that can be affixed to a wall near the front door. Only firefighters can get into the boxes to access a key to the home, which prevents potential damage to the door upon entry.

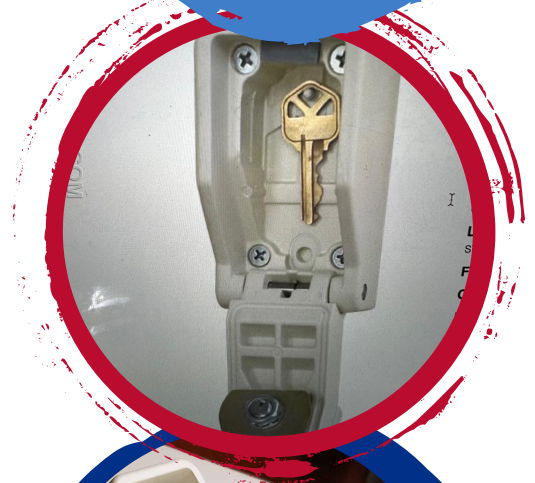

Features

- Holds 1 key
- Weather resistant

Benefits

- Enables rapid access to home.
- Reduces forced entry property damage.
- Reduces risk of injury to first responders.
- Re-securing the residence is simple and quick.
- Utilizes master key system within your fire district.
- One time purchase with no monthly fees.
